CV Sebastian Schönwetter

Personal details

Name
Sebastian Schönwetter

Address
Steenweg op Brussel 149
1780 Wemmel
Belgium

Telephone
Office : +32-2-460 39 86
Fax : +32-2-460 88 49
GSM : +32-485-844 368

Email
seb@open2.be

Date and place of birth
October 13th, 1978, Berlin

Languages
Dutch, fluent
French, fluent
English, fluent
German, fluent

Extra qualifications
Novell Netware 3.12
Microsoft Certified Professional Windows NT
Microsoft Certified Professional TCP/IP Networking
Microsoft Certified Professional Microsoft Exchange
HP-UX Unix Administration Level 300
HP Surestore E XP512 Level 100,200,300
HP Virtual Array 7x00 Level 100,200,300
HP Advanced Storage Area Networks
High Availability with MC/Serviceguard

Projects

Storage

Date	Customer	Project	Environment
2001/08	Belgian Post Group	XP512 – installation	Solaris
2001/08	HP Internal	Networked RAID1 for clustering	Linux
2001/10	Ebone / KPN Qwest	XP256 migration	Solaris / HP-UX
2001/10	Belgian Post Group	XP512 – Business Copy	Solaris
2001/12	Content Europe	XP512	HP-UX / Linux
2002/02	Vlaams fonds Sociale Integratie	XP48 – Business Copy & Continuous Access	HP-UX
2002/03	DEME / Dredging International	VA 7100 / Brocade installation	Win2k
2002/03	TRW	VA 7100 installation	HP-UX
2002/04	Miko Coffee Belgium	VA 7100 – Data migration	HP-UX
2002/04	JetAir	VA 7100 / Brocade installation	HP-UX
2002/05	Alpro	VA 7400 / Brocade – Data migration EMC symmetrix	HP-UX
2003/09	Belgian Post Group	XP 512 Disaster Recovery / Continuous Access	Solaris / W2K
2003/07	Belgian Post Bank	XP 1024	Solaris
2003/11	HP France / Carrefour France	XP 1024 - Performance benchmark + Expansion	AIX
2004/1	Phoenix IT Services France	Remote monitoring/alarming for XP256/XP512	WinNT / Perl
2004/9	HP France / ANPE	Business Copy XP1024 / XP512	HP-UX
2004/12	Sun MicroSystems / Pioneer Europe	Legato Networker / Sun EBS	Solaris
2005/2	Sun MicroSystems / Luminus	ShadowImage implementation	Solaris
2005/3	Sun MicroSystems / Sogesma	Legato Networker / Sun EBS	Solaris
2005/3	European School Brussels II	Legato Networker	Linux
2005/6	Belgian Post Group	XP12000 – installations + migrations	Solaris
2005/8	Belgian Post Group	XP12000 – scripting for ShadowImage	Solaris / Windows
2005/11	Belgian Post Group	XP12000 – scripting for TrueCopy	Solaris / Windows

Unix

Date	Customer	Project	Environment
2001/02	Ebone / KPN Qwest	System configuration data collection (HP COP)	HP-UX
2001/05	Roxell	HP-UX installation	HP-UX
2001/09	SAEY Steel Holding	Performance Analysis Unix / Autoraid	HP-UX
2001/09	Sycron Belgium	Performance Analysis Unix	HP-UX
2001/11	Universitair Ziekenhuis Antwerp	Ignite-UX server implementation + Golden image creation	HP-UX
2003/05	Belgian Post Group	Cricket monitoring and graphing	Solaris
2004/06	European School Brussels II	Windows, Exchange 2000 migration to Linux / Samba / OpenLDAP	Linux
2004/10	Sun Microsystems / Pioneer Europe	Data center migration - re-installation	Solaris
2005/2-3	Sun Microssystems / Luminus	Data center migration	Solaris
2005/6-12	Belgian Post Group	System Administration	Solaris

Scripting

Date	Customer	Project	Environment
2002/08	European School	Web-based creation of users / home directories / mailboxes / active directory containers, database drive from Oracle database on Solaris	IIS / W2K / Solaris / Perl / VBScript
2003/02	Belgian Post Group	Automatic creation of excel reports about disk space utilization / SAN topology	Solaris / Linux / Perl
2003/05	Belgian Post Group	Web-based admin tool for restarting and logging application reboots	Reliant UNIX / Shell / C

Projects (cont'd)

Clustering

Date	Customer	Project	Environment
2001/04	HP Internal	MC/Serviceguard cluster with NFS and Oracle DB	HPUX
2002/09	HP Internal	OpenMosix cluster with application load balancing	Linux
2002/11	Jean Richard Insurance	Heartbeat Cluster with Apache / Postgres / DHCP / BIND server	Linux
2004/4	HP France / STK MicroElectronics	MC/SG Cluster for OmniBack + Oracle	HPUX
2005/4	Jean Richard Insurance	Redesign cluster with SAN and Central storage	Linux
2005/12	Belgian Post Group	Integration of ShadowImage (HP Continuous Access) in Veritas Cluster	Solaris

Network management

Date	Customer	Project	Environment
2003	Belgian Post Group	Brocade FC Switches monitoring in Big Brother	Big Brother/Linux/Solaris
2002/2003	Belgian Post Group	HP XP512 Monitoring in Big Brother	Big Brother/Solaris
2003	Belgian Post Group	XP512 Performance graphing	Cricket/Linux
2003	Belgian Post Group	Brocade FC Swutch traffic graphing	Cricket/Linux
2004/8	Open2	Nagios monitoring of all customers	Nagios/Linux
2004/11	Interbrew	Nagios monitoring of printing environment	Nagios/AIX
2005/3-6	Interbrew	Nagios as a replacement for BMC Patrol	Nagios/AIX
2006/5	Belgian Local Polic	Nagios network monitoring of local Network	Nagios/Linux

Printing

Date	Customer	Project	Environment
2003/12	Interbrew	Dazel - HP OMS	AIX
2004/1	Interbrew	Web-Based Automatisation HP OMS	AIX / PHP / Perl
2004/3-6	Interbrew	SAP / HP OMS document management using EMC Documentum	AIX / Perl
2004/7-12	Interbrew	SAP output formatting using StreamServe / HP OMS	AIX / Perl

Technical Knowledge

Operating Systems
Linux
HP-UX 10.20, 11.00, 11.11
Solaris 2.6, 8.0, 9.0 x86 & sparc, 10
SCO Unixware & Openserver
Intel RMX (realtime OS)
Compaq True 64 Unix
Motorola Unix m88k

Clustering
HP MC/Serviceguard Clustering
TruCluster on Tru64
Heartbeat / Linux
OpenMosix / Linux

Storage Managers
HP-UX LVM
Veritas VxVM
Solstice DiskSuite
Linux LVM
Logical Storage Manager (LSM) Tru64

Networking
TCP/IP
Novell Netware
Appletalk

Messaging Software
Washington University & Cyrus IMAP
QMail / Vpopmail / Sendmail / Exim
Microsoft Exchange

Database Software
PostgreSQL
MySQL
Solid embedded SQL engine
Informix

Internet software
Apache HTTP server Linux/Solaris PHP
Squid (Proxy Server)
Jakarta/Tomcat
ISC Bind v8 & v9
ISC DHCPd
Microsoft Internet Information Server
Microsoft Proxy Server / ISA

Programming Languages
PERL, C, AWK, SH
PHP

Application software
Sun Staroffice / OpenOffice

Telecommunications
Comverse Voice mail systems
Comverse iSMSC systems
Comverse Unified Messaging systems
Siemens K1103 as an analysis and
troubleshooting tool

Storage Area Networking
Brocade 2800 series
Brocade 3800 series
Brocade 12000 and 24000 Directors
HP XP 256 (HDS 7700e)
HP XP 48/512 (HDS 9910/9960)
HP XP 128/1024 (HDS 9970/9980)
HP XP 12000 (HDS Tagmastore)
HP Virtual Array 7100 / 7400
Sun StorEdge T3
Sun StorEdge 3510

SAN Management
HP Commandview & CommandviewSDM
HP Performance Advisor
HP San Manager

Network / Environment monitoring
BigBrother
BigSister
Cricket
Nagios

Printing
HP Dazel / HP OMS
Cups

Backup
BakBone Netvault
Legato Networker / Sun Enterprise Backup
Veritas Netbackup

Employment information

<u>Past working experience</u>
1995-1996
Small jobs during school holidays for my family's small businesses.
Setting up a network and a policy for the administration, defining procedures for document creation and creating websites.
Started working in a nearby computer firm.

1997
Became self-employed, working primarily for the previous computer Firm.

1998
Became a partner in the business, after defining a new name and new business goals for the firm.

1999
Stopped as partner of the computer services firm.

No longer self-employed

Joined Comverse Network Systems

1999
Comverse Network Systems is one of the world's leading developers of value added services for telecom operators around the world. Support for Proximus, Belgacom, KPN Orange for Voice Mail and SMS systems. New installations planning and pro-active management of a vast network spanning 6 interconnected sites, containing over 56 Unix (M88k/Solaris/Tru64/Sco) servers.

2000
Joined Hewlett-Packard as Account Support Engineer Unix. With the HP Personalised System Support contract customers get an account team that takes care of his environment.   The team consists of a primary customer contact (ASE) who handles the pro-active support and account management, a software engineer (RCAA) and a hardware engineer (HSE).

2001
Became Technical Account Mgr at HP, with focus on Unix and Storage. TAM handles consulting assignments and selected strategic customer accounts ('Belgian Post', Ministry of Internal Affairs). Primary consulting assignments : Unix performance studies, new Storage technologies implementations and Data migration.

2002
Left HP and joined "Belgian Post' as Unix / San administrator.

Again self-employed.

2003
Contracting jobs for Belgian Post, HP France

2004
Contracting jobs for Belgian Post, HP France, Interbrew, Sun Microsystems

2005
Contracting jobs for Interbrew, Sun Microsystems, Belgian Post

2006
Contracting jobs for Belgian Post, Belgian Local Police

<u>Strong points</u>
Very Customer-minded
Analytical
Passion for technology
Vision
Can work independent
